EVOZOME

WE ARE USING ZOME GEOMETRY
FOR BUILDING OUR PRODUCTS

DIAMOND

Sustainable
recyclable materials

Made in
Serbia

International
worldwide export

ARMADILLO

“

Zomes belong to a family of geometric shapes, made of diamond shapes arranged in a double helix, whose frame is in resonance with the living world.

Sacred geometry can be considered an important tool for enlightenment. Vibrational properties of zomes create an expansion of awareness and increase our perceived capabilities.
